Career Services
Our Mission: Your Success!

- We are committed to providing programs and services that will lead our students to their career destinations and/or advanced training opportunities in public health.

- Toward that end we provide career guidance, learning opportunities and multiple resources to students, postdocs, and alumni.

- We see our role as one that helps facilitate your career development and planning process to maximize your career potential by providing tools to help you achieve your goals.
A Partnership

We partner with you to help you take those steps that lead to success as you define it (and we can even help with that): job hunting, securing an internship, preparing for an academic interview, applying for a fellowship or a postdoctoral position.

No matter where you want to go (or where you may need to stop along the way) our mission is YOUR Success!
How We Help you Succeed:

1. Skill building/paper and people
2. Employer development
3. Networking opportunities
1. Skill Building

- Career development workshops and events, such as resume writing, interview skills, networking, and job search tips
- Individual career counseling
- Career Services Web site
- Facebook
2. Employer Development

- Pitt Bridges
- Government agencies
- For profit & non-profit entities engaged in public health
- Partnerships with other Pitt schools
- Twitter
- Professional associations (APHA, ASPPH)
3. Networking Opportunities

Alumni Mentors
Partnerships with other University centers
LinkedIn Community
Career fairs & other events
