   APPENDIX III: The Public Health Professional’s Oath
MESSAGE FROM THE DEAN

Dear Incoming Student:

I welcome you to Pitt Public Health. You are embarking on a challenging and rewarding career in public health, and you have chosen an excellent school for your graduate education. This fall the school expects a total enrollment of more than 600 full- and part-time students—a considerable increase over the 30 students first admitted in 1949.

The field of public health has changed in many ways since those early days. While there has been a drastic reduction in some diseases, others pose increasing threats to human health. We are now confronted with diseases of lifestyle, aging, and problems of our own making in both the environment and the workplace. Health disparities between the advantaged and the disadvantaged present a constant challenge. International health issues and outbreaks like the Zika epidemic provide opportunities to work collaboratively with fellow health professionals both in the lab and in communities throughout the world. Escalating health care costs vex us economically and politically, with hard work ahead of us on structuring the reform of our nation’s health care system. Far too often, violence affects our families and neighborhoods. Vaccination rates among our children remain too low, while rates of addiction and overdose skyrocket. The list of challenges goes on and on. But the training you receive here will enable you to meet the new public health problems facing our rapidly changing planet.

It’s a time of change at the school as well, as we complete the final phase of an ambitious project to expand, renovate, and upgrade our physical space. As the work concludes, you will be the first students to benefit both from the completely renovated academic spaces and the new laboratory pavilion. I invite you to enjoy our Community Commons, an inspiring space for collaborating, studying, and building community—not to mention a convenient spot to grab a quick snack or cup of coffee with friends.

I know you’ll be busy with the educational, research, and practice requirements of your degree. Nevertheless, I hope that you’ll take advantage of other exciting opportunities outside your department, elsewhere on campus, and in the local community. Watch for events like the International Dinner, professional and scientific seminars, the Alumni-Student Networking Breakfast, and of course Dean’s Day, our annual student research competition. The remarkable range of work represented at that event makes it no surprise that Pitt Public Health is a consistent leader in winning NIH research funding year after year.

Again, welcome, and best wishes as you embark on your public health career.

Sincerely,

Donald S. Burke, MD
Dean, University of Pittsburgh Graduate School of Public Health
Distinguished University Professor of Health Science, and Policy
UPMC-Jonas Salk Chair in Global Health
The University of Pittsburgh Graduate School of Public Health was founded in 1948 in response to the need for trained public health professionals. With a $13.6 million grant from the A. W. Mellon Educational and Charitable Trust, the University’s Board of Trustees officially established the school, appointing as its first dean the former surgeon general of the United States Public Health Service. A front-page story in *The Pittsburgh Press* (September 22, 1948) praised: “Dr. Thomas Parran...will bring to this new job the experience of one of the most distinguished careers in contemporary medicine.”

Quoting then University Chancellor R. H. Fitzgerald, the Press went on to say: “...the School of Public Health will be different from any other school in the University’s program.... It will be a center, coordinator, and stimulator of fundamental research, dedicated to reducing, killing, and disabling disease and lengthening the span of life.”

Today, Pitt’s Graduate School of Public Health has successfully implemented a three-component mission of research, education, and service. We create, transmit, and apply new knowledge—all for the benefit of human health. As we see it, the most important driver for the entire school is to ensure that our work—and the work of our graduates—is used to develop products and enact policies that make a difference in the world. And the fruits of our labors are all around us, every day, in longer, happier, and healthier lives.

At Pitt Public Health we are, first and foremost, problem-solvers. Our faculty are thought-leaders who embrace problem-solving in every aspect of their work, whether in their research, classroom instruction, or when mentoring students. Through rigorous theoretical and applied programs, our students not only acquire knowledge and skills, but also learn to apply what they have learned to real-world problem-solving.

And, through our research centers and programs, you won’t have to wait until you get out into the field to make a difference—you can begin to contribute immediately.

In the past decade alone, Pitt Public Health has solidified its position as a global leader in public health research, education and practice. The school has led groundbreaking studies and created research and practice centers that translate academic knowledge into the real world, such as:

- leading-edge occupational and environmental health research through the Center for Occupational Biostatistics and Epidemiology
- community-based methods to identify and fix environmental problems
- a landmark diabetes study that determined the best way to treat patients with both type 2 diabetes and heart disease
- progress in identifying the genetics of late-onset Alzheimer’s disease
- the Pitt Men's Study, which has been studying HIV and AIDS for more than 25 years and has been responsible for some of the major discoveries in the field
- the Preparedness and Emergency Response Research Center to evaluate emergency response plans and establish best practices
- research at the school’s Center for Aging and Population Health into how we can live better and longer
- Cura Zika, a new international alliance to accelerate urgently needed efforts to address the Zika epidemic
- six new research pilot projects on the prevention of Opioid addiction and overdose

New public health challenges face us every day. Like the transformational work by Jonas Salk to develop the polio vaccine here at Pitt, we are responding to today’s health threats by preparing the next generation of public health leaders to use innovation as the catalyst for problem-solving.

With a degree from Pitt Public Health, your future is wide open!

---

RESEARCH AND PRACTICE CENTERS

Visit publichealth.pitt.edu/centers for information about these Pitt Public Health and University centers:

Aging and Population Health
Bioethics and Health Law
Biostatistical Center for National Surgical Adjuvant Breast and Bowel Project
Biostatistics Facility of the University of Pittsburgh Cancer Institute
Comparative Effectiveness Research Core
Concept Mapping Institute
Diabetes Prevention Support
Environmental Basis for Human Disease
Epidemiology Data
Evaluation Institute for Public Health
Free Radical and Antioxidant Health
Global Health
Health Equity
Health Policy Institute
Healthy Environments and Communities
Heinz Chemistry and Nutrition Laboratory
HIV Prevention and Care Project
Laboratory of Environmental Health, Reproduction, and Development
LGBT Health Research
Lung Regeneration
Models of Infectious Disease Agent Study (MIDAS)
Molecular Epidemiology Laboratory
Occupational Biostatistics and Epidemiology
Pennsylvania/MidAtlantic AIDS Education and Training
Pennsylvania Prevention Project (StopHIV)
Pennsylvania Public Health Training Center
Pharmaceutical Economics Research Group
Physical Activity Resource Center for Public Health
Pitt Men’s Study
Project Silk
Public Health Adaptive Systems Studies (PHASYS)
Public Health Dynamics Laboratory
Public Health Practice
Research on Health Care
Rural Health Practice
Telehealth AET, Appalachian Project
Ultrasound Research Laboratory
GOVERNANCE COMMITTEES

Graduate School of Public Health students are encouraged to participate in school-wide governance through service on key committees, including the Pitt Public Health Council, Educational Policies and Curriculum Committee, the Diversity Committee, the Safety Committee, the Planning and Budget Committee, and the MPH Committee.

Those interested in committee service may e-mail Mary Derkach, assistant dean for student affairs, at derkach@pitt.edu.

STUDENT ORGANIZATIONS

All Pitt Public Health students are members of the Pitt Public Health Student Government Association (SGA). The governing board includes officers and representatives from each department in the school. All Pitt Public Health doctoral students are also members of the Pitt Public Health Doctoral Student Organization (DSO). More information follows on these and other student organizations.

The Graduate and Professional Student Government (GPGS) (825 William Pitt Union) provides services and event programming and represents the concerns of all graduate and professional students. Interested students may contact any SGA representative or the GPSG (gpsg@pitt.edu) for further information.

The Student Government Association (SGA) is run by and for Pitt Public Health students to exercise a greater degree of participation within the school. President: Abigail Tan, abigailtan@pitt.edu

The Doctoral Student Organization (DSO) run by and for doctoral students, serves as a setting for interaction in matters of particular interest to doctoral students. Contact: dsopph@pitt.edu

The Health Policy and Management Association (HPMA) is designed to bring students together for discussion of health administration issues and other matters important to their area of study and career field. All Pitt Public Health students are welcome. President: Halley Sonntag, halleysonntag@pitt.edu

The Minority Student Organization (MSO) was formed in 1996 to promote the welfare and interests of minority students at Pitt Public Health. The organization sponsors social events and community outreach activities throughout the school year. President: TBD

The Association of Women in Public Health (AWPH), founded in 2001, hosts conferences on timely public health and women’s issues as well as dinners, receptions, and other events, often in collaboration with women’s groups at other University schools. Students have an opportunity to showcase their research and gain valuable professional skills. Participation by both men and women is welcome. Periodically the AWPH holds a conference titled Transcending Boundaries in collaboration with the Women’s Forum of the Graduate School of Public and International Affairs, the Organization of Women Graduate Students, and the Department of Women’s Studies. President: TBD

The Global Health Student Association (GHSA) facilitates interests in global health among all Pitt Public Health students and provides a supportive environment for international students at the school. President: TBD

The Student Public Health Epidemic Response Effort (SPHERE) is an organization for those interested in epidemic response and community preparedness. The SPHERE team participates in outbreak and disaster response activities with local and state health departments, engages in public health emergency management responses, and takes part in community health events and promotions. All Pitt Public Health master’s, doctoral, and certificate students are eligible for membership. President: TBD

The Public Health Fitness and Recreational Organization (PHFRAO) is an organization promoting physical activity, psychological well-being, and social interactions among its members. President: TBD

PROFESSIONAL ORGANIZATIONS

Students are encouraged to join the American Public Health Association (APHA). Members receive its monthly journal along with newsletters and other pertinent information. APHA holds an annual meeting every fall in a major U.S. city when students have the opportunity to present scholarly papers and take advantage of APHA’s placement service. An application to join the APHA has been included in your orientation packet and can be also be obtained from the Office of Student Affairs in A519 Crabtree Hall. Annual student membership is $85.

During graduate school, students may be able to join professional societies at a discounted rate. Students are encouraged to check with their departments about other professional organizations offering student memberships.
WHAT’S HAPPENING, WEEKLY UPDATE

E-mailed to all students every week, the Weekly Update is the primary way that we disseminate information within the Pitt Public Health community. It contains information on upcoming events, policy changes, scholarships, internships and fellowships, student organizations, courses, career services, and graduation updates. It’s also available on the Web at publichealth.pitt.edu/weeklyupdate, along with news, photo, and social media feeds. Submit information for the Weekly Update by logging into publichealth.pitt.edu/submit.

LISTSERV, E-MAIL

Every student is assigned an e-mail address by the University which is officially added to the student listserv for all terms that the student is active. The Weekly Update is sent to this e-mail address, as are other important messages from the school, your department, and the Office of Student Affairs.

Students are strongly advised to read their Pitt e-mails or to automatically forward them to a more frequently used e-mail account. Find instructions at technology.pitt.edu.

WEB SITE

Visit publichealth.pitt.edu for academic requirements, policies, student services, current Pitt Public Health news and research, our calendar, the school directory, general information about the school, and news and information for applicants and alumni.

BULLETIN BOARDS

Notices regarding registration, graduation, classes, upcoming events, training opportunities, etc. are posted on bulletin boards outside the Office of Student Affairs (A519 Crabtree) and throughout the school.

SOCIAL MEDIA

Connect with us on Facebook, Twitter, YouTube, Flickr, and LinkedIn to engage with classmates and alumni, follow media coverage of our public advancements, watch lectures given by faculty, see photos of our events, and more. Visit publichealth.pitt.edu/socialmedia.

ACADEMIC HANDBOOKS

School-wide and departmental handbooks include all of the administrative details of earning a degree. The Pitt Public Health Academic Handbook can be found at publichealth.pitt.edu/academichandbook. Departmental handbooks can also be found online within each department.

CAREER SERVICES

Pitt Bridges: Pitt Bridges is an online job-board available to students and alumni. Students can search for full- or part-time jobs, fellowships, internships, and postdoctoral positions, as well as register for workshops and counseling appointments. Login at pittbridges.pitt.edu. However, for student employment, go to pittsource.com.

Career Services Web Page: The career services Web pages on the Pitt Public Health Web site offer a range of resources and tools for students, including a job search tool kit, a list of annually recurring fellowships and internships, details about our alumni-student mentoring program, suggested employers for students and alumni, and our graduate outcomes report.

Facebook: Pitt Public Health Career Services’ Facebook page (facebook.com/GSPHCareers) contains helpful tips and advice on job hunting, interviewing, and resume writing.

LinkedIn: The Pitt Public Health subgroup on LinkedIn connects current students with alumni. The discussion board features a variety of topics, including upcoming events and job announcements posted by alumni. Students can find the group by logging into LinkedIn and searching groups for Pitt Public Health.

Twitter: Pitt Public Health has two official Twitter accounts. The @PittPubHlth account is for the school at large, to stay informed about faculty research, current events, and public health in the news. The @GSPHCareers account is solely for posting and re-tweeting job, internship, fellowship, and post-doc opportunities that are relevant to students.

UNIVERSITY-WIDE RESOURCES

Online Catalog: Visit catalog.upp.pitt.edu/index.php?catoid=6 for the University’s graduate school catalog consisting of general information about Pitt as well as more specific information about Pitt Public Health and its education and research programs. For questions on program requirements, students should consult their department’s student services coordinator and their academic advisor.

University Calendar: Academic calendars for current and future years are available at provost.pitt.edu/information-on/calendar.html.

University-Wide Directory: Contact information for students, faculty, and staff across the University can be found at find.pitt.edu.
The National Board of Public Health Examiners (NBPHE) offers the Certified in Public Health (CPH) credential as the only voluntary core credential for public health professionals. The CPH designation demonstrates that an individual graduate from a CEPH-accredited school or program of public health has mastered foundational competencies in public health. CPH professionals raise the bar and enhance the public health profession through exemplary academic and leadership skills.

Pitt Public Health pays for all eligible students to sit for the CPH exam. Additionally, the school provides opportunities to stay certified after graduation through continuing education credit offerings.

For more information visit publichealth.pitt.edu/cph.
REGISTRATION PROCEDURES

It is essential that students familiarize themselves with the following policies.

ADvising:

Advising: Every student should have a faculty advisor assigned by the department, and also a departmental student services coordinator. This team, in addition to the program director, will be the student’s main resource for course advising, registration, and initial mentoring. Prior to registration, students are required to meet with their faculty advisors and it is also recommended that they meet with the departmental student services coordinator.

Provisional Status: Applicants who do not qualify for full admission because of certain deficiencies may be admitted with provisional status and permitted to meet requirements during the first year of study. An academic hold is placed on the records of such students. Students may not graduate with provisional status, nor may they take program examinations such as preliminary/qualifying, comprehensive, or other examinations. Students are notified of provisional status in the admission letter and are responsible for notifying the Office of Student Affairs when the terms of the provision have been satisfied.

Statute of Limitations: Requirements for a master’s degree must be completed within a period of four calendar years (MS) or five years (MPH, MHA), from the time of initial registration for graduate study.

Requirements for a doctoral degree must be fulfilled within ten calendar years from initial registration for graduate study, or eight years for those previously holding a master’s degree.

Under exceptional circumstances, a student may apply for an extension of the statute of limitations. The request must be approved by the departmental chair and submitted to the assistant dean for student affairs for final approval. A student making such a request must demonstrate proper preparation for the completion of all current degree requirements.

Grading: Most courses use the standard letter grades (A through F). Students may earn pass/fail grades (H, S, U) only if the instructor offers that option.

School-wide core courses: The following policy on grading applies to all students registered for Pitt Public Health school-wide core courses:

A grade of B or better is the expected grade for all school-wide core courses. If a student earns less than a B, the student and advisor should meet to discuss the grade, and the student will be strongly encouraged to re-take the course. If a student receives a grade below a C, the student must repeat the course.

Audit: A student may request permission of the instructor to audit a course. Audited courses do not count toward the fulfillment of the credit requirement, and no credits are earned. To audit a course, a student registers and tuition is charged as usual.

Incomplete grades: The G grade is assigned when a student does not complete a course that would normally be completed by the end of the term. G grades must be resolved within one year of the assignment.

The I grade is used for incomplete research work, e.g. for special studies, thesis, essay, or dissertation credits, that extends beyond the end of the term.

Grade point average: All students are expected to maintain a grade point average (GPA) of 3.0 or better to remain in good standing. No student can graduate with a GPA of less than 3.0 or an unresolved F or U in a school core course. The procedure for the removal of a U grade is determined by the department offering the course for which that grade was received. Students have only two opportunities to pass a core course. Probation, normally resulting from a GPA of less than 3.0, may lead to dismissal from the school. Other standards for satisfactory performance may be obtained from faculty advisors or from the assistant dean for student affairs (read the Pitt Public Health probation and dismissal policy at publichealth.pitt.edu/academichandbook).

Registration:

Registration: Materials may be obtained from each department, the Office of Student Affairs (A519 Crabtree), or online. When registering, a student must first consult an advisor, then bring the signed registration form to the departmental student services coordinator for removal of any advising holds. The student can then self-register by logging in at my.pitt.edu. Non-degree students must process registration forms in the Office of Student Affairs.

Students must register by the University deadline date each term to avoid being charged a late registration fee. Students who have financial holds on their accounts must clear them before registration can be processed. Only after registering for classes can you obtain a permanent student ID card from Panther Central in the Litchfield Towers main lobby. Students who wish to register for a graduate course in another school at the University must first obtain written permission to register from the instructor of the course and then must obtain a permission number from the school offering the course.

Registration Requirement: Students must be registered for credits whenever they are using faculty time, and especially during the term of graduation and during any term when taking a master’s or doctoral program exam (qualifying/preliminary, comprehensive, or defense). Students must take at least one credit in the term of graduation. Students with full appointments, such as a GSR/GSA/TA/TF, are required to register full-time, except in certain cases where they have already completed all required credits.

International students must be registered full-time in fall and spring terms unless permitted by the Office of International Services to register for less than full-time status.

Time Status: Student time status is a categorization used by the
University for invoicing purposes and is determined by the number of credit hours for which a student is registered during a term:

Full-time status is 9 credits or more.
Part-time status is 8.5 credits or fewer.

Inactive status applies when a student has not been registered for a minimum of one credit in three consecutive terms. Such a student must reapply through the SOPHAS system to be re-admitted and reinstated in order to continue in the graduate degree program.

Fellowships, scholarships, or the granting or deferment of a loan to a student may be contingent upon a student’s registration status as a full-time or part-time student.

Registration Holds: These will prevent a student from enrolling. Holds can be placed by the University or by Pitt Public Health. If a hold is on an account, the student must directly contact the office who applied the hold to discuss removal.

University holds can be placed by the offices of financial aid or University collections for failure to complete appropriate paperwork or for not paying tuition bills.

Advising holds are placed each term on every active student account to ensure that the student has spoken to an academic advisor before registering. Please see your departmental student services coordinator each term for removal of this hold.

International student holds are placed on every international student account until the student has checked in with the Office of International Services. Additionally, if a new international student fails to provide proof of health insurance in the first term of study, a hold will be placed on the student’s account.

Pitt Public Health may also place a hold on an account if a student does not complete the academic integrity module or submit required paperwork, including official transcripts, for their student files in their first term of enrollment.

Adding, Dropping Courses: These actions must be taken by the deadline date announced each term; the deadline applies even if a course begins in the second session of a term. The add/drop form must first be signed by the student’s advisor, then brought to the department’s student services administrator. Non-degree students must go to the Office of Student Affairs.

No changes in classes may be made after the end of the add/drop period. After that deadline, a student may process a monitored withdrawal form in the departmental student office and be given a W (withdrawal) grade; this should be done in consultation with a faculty advisor.

Students resigning from all classes in a particular term must initiate the formal resignation process through the University’s registration hotline, 412-624-7585. Visit payments.pitt.edu/tuition-adjustments for more information.

Appeals for late registration or add/drop must be approved in writing by the course instructor, advisor, and Mary Derkach, assistant dean, before they are directed to the Pitt Office of Student Appeals, G-12 Thackeray. Service fees will be charged.

Cross Registration: Official cross registration by full-time graduate students at the University of Pittsburgh, Carlow University, Carnegie Mellon University, Chatham University, Community College of Allegheny County, Duquesne University, La Roche College, Point Park University, Robert Morris University, and Pittsburgh Theological Seminary may be arranged through Pitt’s Office of the University Registrar (220 Thackeray Hall, 412-624-7600). Cross registration is available only in the fall and spring terms. Forms are available online at registrar.pitt.edu/cross_registration.html.

Inactive Status, Readmission: A student classified as inactive (i.e., not registered for three consecutive terms) must submit an application, including application fee, official transcripts, and new letters of recommendation through the SOPHAS system for readmission to graduate study before being permitted to register again. When re-admitted, the student must be prepared to meet all current admission and degree requirements.

Course Repeat: Students may repeat a course one time if the grade received is less than a B or S. The student must register for the course and complete a Course Repeat Form (available in A519 Crabtree Hall). Both grades will appear on the transcript with an indication that the course has been repeated. Students who twice fail a core or required course are subject to dismissal.

Leave of Absence: Under special conditions, graduate students may be granted one leave of absence. A maximum leave of two years may be granted to doctoral students or one year to master’s students. The length and rationale for the leave of absence must be stated in writing in advance, recommended to Mary Derkach, assistant dean, by the student’s department, and approved by the assistant dean. If approved, the time of the leave will not count against the total time allowed by statute of limitations for the degree sought. Students on leave who do not register for three consecutive terms will have to apply for readmission using the SOPHAS application system, but readmission following an approved leave of absence is a formality. In some cases the department may impose special conditions on return, e.g., a doctor’s written approval, to resume studies.

CREDIT SHARING

Credit Sharing: Students wishing to pursue two or more programs simultaneously should consult with all programs and with Mary Derkach, assistant dean for student affairs, about credit requirements. Complex credit-sharing arrangements may require special approval from the provost. This does not apply to students enrolled in formal University dual or joint programs. See the academic handbook for additional information at publichealth.pitt.edu/academichandbook.
Advanced Standing, Transfer Credits: Students planning to request advanced standing or transfer credits for degrees previously earned or graduate credits taken should meet with the student services coordinator of their department:

BCHS TBD
BIOSST Renee Nerozzi Valenti
EOH Penny Weiss
EPID Lori Smith
HPM Jessica Dornin
HUGEN Noel Harrie
IDM Abby Michael
MMPH Jessica Dornin

The provost has set limits on the number of credits that may be transferred from a prior degree or from graduate credits previously earned, and also on the number of credits that may be shared when two degrees are being earned simultaneously.

Requests for advanced standing must be submitted on the Course Credits Accepted form to Mary Derkach, assistant dean, A519 Crabtree Hall, after approval by the student’s advisor.

Dual-degree, Joint-degree, and Cooperative Programs: Pitt Public Health participates in several formal combined degree programs. Before registering for courses in pursuit of a dual-degree, joint-degree, or cooperative program, a student must be admitted to both programs.

FORMS

Forms: Most forms that students need can be found at publichealth.pitt.edu/home/academics/forms or from the Pitt Public Health Office of Student Affairs, A519 Crabtree Hall.

Change of Name, Social Security Number, Address: All changes in name and social security number must be reported to the office of the registrar in Thackeray Hall (documentation will be required). Changes in address or telephone number can be processed online at my.pitt.edu.

Course Evaluations: Current students have access to the course evaluation portal where they can review past course evaluations. The portal can be found at publichealth.pitt.edu/courses.
ACADEMIC AND GRADUATION REQUIREMENTS

PROGRAM REQUIREMENTS

Academic requirements are available on departmental Web pages at publichealth.pitt.edu. They are not intended, however, to take the place of periodic meetings with academic advisors.

Master’s degrees: For the Master of Public Health degree, approved programs of study require a total of at least forty-two (42) credits, including the required courses, electives, an essay or thesis, and a practicum/internship.

Approved programs of study for the Master of Science degree require a total of at least thirty (30) credits, including required courses, electives, and a thesis on a research problem in the area of the student’s principal interest. Additionally, a comprehensive examination and final oral examination covering the subject of the thesis are required.

Doctoral degree: For advancement to candidacy for a doctoral degree, the student must pass certain examinations (qualifying/preliminary overview, comprehensive, and defense), fulfill the research tool requirement (the student’s advisor confirms facility with use of the computer as a research tool), complete a certain period of residency and specific courses as determined by the department or school, and gain approval of the thesis topic by the student’s thesis or dissertation advisory committee. The credit requirement generally is at least 72 credits; a limited number of credits may possibly be accepted from a previously earned master’s degree at the discretion of the department.

Public health school-wide core courses: Students are expected to demonstrate competence in the fundamentals of public health with an understanding of human-environment relationships; techniques of investigation, measurement, and evaluation; and health services. The subject areas covering these fundamentals are currently defined as social and behavioral science, environmental health, biostatistics, epidemiology, and health policy and management. See the academic handbook at publichealth.pitt.edu/academichandbook for a list of the school-wide core courses.

Public Health Grand Rounds: All degree-seeking students must register for and complete two terms of the Dean’s Public Health Grand Rounds Course (PUBHLT 2022) during their first fall and spring terms. This is a course designed to expose students to the broader profession of public health.

Electronic theses, essays, and dissertations: Master's theses and essays, and doctoral dissertations must be submitted by ETD Web site upload rather than paper-based format. For more information go to pitt.edu/~graduate/etd.

Research certification: All students involved in human or animal research are required to complete online training modules. See rco.pitt.edu/training-researchers for more information.

Exit survey: Students must complete a brief online exit survey before certification for graduation. A link to the survey is posted on the Pitt Public Health Web site in the graduation section.
EXEMPTIONS

Exemptions from school-level required courses are made on a case-by-case basis. These are based on prior coursework and may or may not be accompanied by advanced standing credits. A School Core Course Exemption form must be completed, explicitly listing the coursework on which the exemption is based, and must be signed by the student’s advisor, the instructor of the course from which the exemption is desired, and the assistant dean for student affairs. If advanced standing credit is being requested, an additional form must also be filed.

DrPH students who have previously received an MPH from an accredited school of public health may be exempted from all requirements except Public Health Grand Rounds by submitting the School Core Course Exemption form to the Office of Student Affairs. MS and PhD students with an MPH from an accredited school of public health can be exempted from Essentials of Public Health by submitting the School Core Course Exemption form to the Office of Student Affairs.

PRACTICUM REQUIREMENTS

All MPH and DrPH programs in Pitt Public Health require a practicum, usually at least 200 hours. Specific requirements vary by department. Additionally, programs other than the MPH and DrPH may also require practica or clinical experiences. Depending on the practicum or clinical experience, appropriate clearances, specific site agreements, or other legal arrangements may be required. Students should discuss these requirements with their advisor and practicum supervisor well in advance, as some processes are lengthy.

NON-CREDIT REQUIREMENTS

Pitt Public Health students are responsible for completing several non-credit requirements before they can complete their degree. These include the online academic integrity module and an exit survey. Students who fail to comply with the non-credit requirements will have an academic hold placed on their account.

PROVISIONAL STATUS

All students admitted with provisional status must remove all provisions in order to graduate. See page 12 of this manual.

GRADUATION TIMETABLE

There are four graduation dates per academic year: April, June, August, and December. Deadlines are set each term for applications for graduation, generally due at least three months before the graduation date. Check the student affairs bulletin board outside of the Office of Student Affairs for posted deadlines, or visit publichealth.pitt.edu/graduation for more information. A late fee is assessed if the deadline date is not met. Applications for graduation are valid for only one graduation date.

Certification for graduation requires documentation that course and credit requirements have been met, all required examinations have been passed satisfactorily, and all incomplete grades have been removed. The final thesis, essay, or dissertation must be submitted to student affairs. Students must follow the formatting guidelines available through the student affairs Web pages on graduation information.

University of Pittsburgh commencement is generally held at the end of April. April graduates, as well as graduates from the previous June, August, or December, are invited to participate in that event. Diplomas are mailed to the student by the University registrar approximately six weeks after graduation. The Graduate School of Public Health began holding its own convocation for graduating students in April 1991. It is held on the same weekend as the University’s commencement exercises. The 2018 Pitt Public Health convocation is tentatively scheduled for April 29, 2018, at the Carnegie Music Hall in Oakland.

Students who apply for graduation but later find it necessary to postpone must submit a new application for the new date.

For detailed information on graduation requirements, go to publichealth.pitt.edu/graduation.
REQUIREMENTS FOR STUDENTS FROM ABROAD

ENGLISH LANGUAGE TESTING

New students from outside the United States must first report to the Pitt Office of International Services, 708 William Pitt Union (412-624-7120, ois.pitt.edu) for initial document processing. Prior to their initial registration, all students whose native language is not English and who have not already earned a degree in the U.S. or from an accredited institution in a country where the official language is English must submit scores for the TOEFL or IELTS. Those whose TOEFL scores are not higher than 600 on the PBT, or 100 on the iBT, or above Band 7 on the IELTS must be tested for English proficiency by the University’s English Language Institute (ELI). These students should make their own arrangements to schedule their tests. If the test results indicate the need for language training, the students should be guided by the recommendation from ELI. No new student can be officially registered with Pitt Public Health until there is compliance with these requirements.

REGISTRATION

All students from abroad must be registered as full-time students during the fall and spring term of each year if they are to maintain their enrollment status. This requirement facilitates the University’s compliance with reporting procedures of the U.S. Immigration and Naturalization Service. Exceptions to this rule may be made for students who have completed most of their requirements and whose final term of study requires fewer than nine credits; however, permission must be obtained from Pitt’s Office of International Services. Students should consult that office for answers to questions regarding registration status.

DEPARTURE NOTIFICATION

All international students must submit an online form when they graduate or when they leave the school for any other reason. The form can be obtained at my.ois.pitt.edu. Students must forward confirmation of the completion of this form to their departmental student services coordinator.
POLICIES

ACADEMIC INTEGRITY

Students are obliged to exhibit honesty in carrying out academic assignments. Violations of ethical standards may include (but are not limited to) presenting the ideas or words of another as one’s own, referring to unauthorized materials during a test, providing unauthorized assistance to another during a test, allowing one’s work to be submitted by another, engaging in disruptive behavior during a class or exam, attempting to change one’s academic evaluation for reasons other than achievement or merit, and failing to cooperate in the investigation of any allegation of dishonesty. Any member of the University may bring to a faculty member’s attention a complaint that a student has violated academic integrity. Violations will be documented, and sanctions may range from a reduced grade to expulsion from school. Sanctions may be imposed by the instructor, or in some cases a hearing will be held before the school’s academic hearing board. For the formal University policy go to cfo.pitt.edu/policies/policy/02/02-03-02.html.

All students are required to complete an online module on plagiarism and academic integrity during the first semester at Pitt Public Health. More information about this module will be available at new student orientation and in the Office of Student Affairs.

ALCOHOL

The following guidelines regarding alcohol are to be observed for all University sponsored functions:

Employees, students, and agents of the University must fully comply with the laws of the Commonwealth of Pennsylvania regarding the possession and consumption of alcohol. Pennsylvania Law prohibits:
• The furnishing or provision of alcohol to anyone under the age of 21 or to anyone visibly intoxicated.
• The possession or consumption of alcoholic beverages under any circumstances by anyone under the age of 21.
• The presence of anyone under the age of 21 on licensed premises where alcohol is served, unless under proper supervision.
• The dispensing of alcoholic beverages by anyone under the age of 18.

At each University function, the host will be considered to be the most senior official present from the school, department, or other segment of the University that is sponsoring the function. The host of a function is responsible for the following:
• Ensuring that Pennsylvania law relating to alcoholic beverages is strictly observed.
• Compliance with these guidelines.

DRUG-FREE SCHOOLS

The University of Pittsburgh maintains a drug-free school and workplace in accordance with federal law and prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on University property or as part of any University
activity. See studentaffairs.pitt.edu/conduct/drugfree for additional information.

**FACULTY-STUDENT RELATIONSHIPS**

The University’s educational mission is promoted by professional relationships between members and students. Relationships of an intimate nature (that is, sexual and/or romantic) compromise the integrity of a faculty-student relationship whenever the faculty member has a responsibility for the student. The University prohibits intimate relationships between a faculty member and a student whose academic work, teaching, or research is being supervised or evaluated by the faculty member.

If an intimate relationship should exist or develop between a faculty member and a student, the University requires the faculty member to remove himself/herself from all supervisory, evaluative, and/or formal advisory roles with respect to the student. Failure to do so may subject the faculty member to disciplinary action.

*Definition note: In this policy, the definition of faculty member refers to anyone appointed by the University as a teacher, researcher, or academic administrator, including graduate and undergraduate students appointed to these roles.*

**FACULTY AND STAFF OBLIGATIONS TO STUDENTS**

Pitt Public Health is committed to fair treatment of students and to reasonable resolution of any issues that arise.

A faculty member is obliged to discharge his or her duties in a fair and conscientious manner (see academic integrity guidelines at cfo.pitt.edu/policies/policy/02/02-03-02.html).

If a student feels that a faculty member fails to meet the obligations set forth in the academic integrity guidelines section on faculty obligations or in the University's advising policy (pitt.edu/~graduate/advising.html), she or he should first attempt to resolve the conflict with the faculty member involved. If this is unsuccessful, the student may initiate a grievance by bringing the complaint to the department chair. If the matter remains unresolved, the student may submit a written statement of charges to the associate dean for student affairs.

Similarly, if a student raises a complaint about actions taken by a member of the University staff in the course of official duty, and the matter cannot be resolved informally with the staff member, the student should meet with the department chair or staff supervisor. If necessary, the associate dean for student affairs will become involved.

**FERPA, STUDENT PRIVACY**

The Federal Family Education Rights and Privacy Act of 1974, as amended, prohibits sharing information about students without authorization. Students who do not want their directory information released must submit a form (included at the end of this manual or found at publichealth.pitt.edu/home/academics/forms) to both the Pitt Public Health Office of Student Affairs in AS19 Crabtree Hall and to the Office of the University Registrar in G-3 Thackeray Hall.

For further information, contact the registrar’s office at 412-624-7600, refer to their Web site at registrar.pitt.edu/ferpa.html, or read the online policy 09/08-01 at cfo.pitt.edu/policies/policy/09/09-08-01.html.

**GRADUATE STUDENT PARENTAL ACCOMMODATION GUIDELINES**

The University believes it is important to provide accommodation for graduate students who become new parents, whether by childbirth or adoption, so that they may contribute to their family responsibilities while continuing to make progress towards their degree. The Graduate Student Parental Accommodation Guidelines can be found at pitt.edu/~graduate/Grad_Parental_Accommodation_Guidelines.pdf.

**NON-DISCRIMINATION**

As an educational institution and as an employer, the University of Pittsburgh does not discriminate on the basis of race, color, religion, ethnicity, national origin, age, sex, sexual orientation, or marital, veteran, or handicapped status.

**PATENT POLICY**

A University student, during his/her enrollment, may be responsible for new discoveries and inventions that could have commercial value and contribute to scientific, technological, social, and cultural progress. Those accomplishments should be patented in the best interest of the student, the University, the public, and the government. The University’s policy on patents determines the rights and obligations of the student and the University in any technology the student may invent while enrolled in the University. Details are available from the Innovation Institute, 200 Gardner Steel Conference Center, and at innovation.pitt.edu/innovation-commercialization.

**PROBATION, DISMISSAL**

The Pitt Public Health guidelines for academic performance, developed by the Educational Policies and Curriculum Committee, can be found at publichealth.pitt.edu/academichandbook. Student records are reviewed once per term, and any student who has failed to maintain good academic standing will be notified by the committee.

**REGULATIONS GOVERNING GRADUATE STUDY**

University policies and regulations pertaining to graduate study at the University of Pittsburgh are compiled in the Regulations Governing Graduate Study at pitt.edu/~graduate/rgtoc.html. Pitt Public Health is required to adhere to these policies but is also permitted to impose its own additional requirements. Students are therefore advised to
also consult the academic handbook, their departmental student services coordinator, or Mary Derkach, assistant dean, when policy questions arise.

RESEARCH INTEGRITY

See University policy 11-01-01, cfo.pitt.edu/policies/policy/11/11-01-01.html. The Office of Research Integrity, 132 Cathedral of Learning, has compiled a practical set of guidelines to help researchers avoid research misconduct. This useful publication, which also contains a list of University offices supporting research, can be found at provost.pitt.edu/research.

SMOKING

Smoking is prohibited in all University owned or leased facilities and vehicles (with a few limited, approved exceptions). Pitt Public Health has a designated smoking area on Bouquet Street near the parking garage. This is the only area where smoking is permitted.

STUDENT AND FACULTY SERVICE

Service is a responsibility of all students and faculty members. Student service is encouraged through extracurricular programs and opportunities that are regularly made available in the broader Pittsburgh community with partnering organizations and non-profit agencies. The school recognizes student service through various awards and stipends.

STUDENT ASSISTANTSHIP POLICIES

For Pitt Public Health and University policies on student assistantships, please visit these sites:
• publichealth.pitt.edu/academichandbook
• pitt.edu/~graduate/gsrpolicystatement.pdf
• pitt.edu/~graduate/tatfgsapolicystatement.pdf

These policies address questions on registration, scholarship and stipend, and work requirements. Students may also consult departmental student services staff as questions arise. Additional information can be found on page 29 of this manual.

STUDENT CONDUCT

The Code of Student Conduct lays out the University’s behavioral standards and basic expectations of student behavior. The University Judicial Board/Student Conduct provides the framework by which members of the University community may address alleged student violations of the Code of Student Conduct. The board adjudicates violations of the code and provides fair process and education for both parties. Members of the University community may direct complaints about behavior not covered by the Academic Integrity Policy to this body. Visit studentaffairs.pitt.edu/conduct for more information.

TITLE IX: SEXUAL HARASSMENT AND ASSAULT RESPONSE

The University of Pittsburgh values the safety and health of all of the members of its community. Any behavior involving sexual assault or harassment, relationship violence, or stalking of another person is prohibited. If substantiated, such behavior may result in criminal charges or disciplinary action.

Title IX of the Education Amendments of 1972, a federal law, prohibits not only gender based discrimination, but also sexual violence and sexual misconduct which may affect the educational or campus environment. Individuals who feel that the Title IX statute has been violated have the right to file a complaint or to refuse to file a complaint. If an individual files a complaint, the school is required to report to the University’s Title IX office. They may learn more about their options from the office of the University’s Title IX coordinator, 500 Craig Hall, 200 S. Craig Street. Additional information can also be found at titleix.pitt.edu.

Pitt’s Office of Sexual Harassment and Assault Response and Education (SHARE) provides counseling to victims of sexual assault, and offers support in all aspects of the recovery process.

Victims of an incident are urged to call the Pitt Police at 412-624-2121, or the City of Pittsburgh Police at 911 to file a report. The SHARE coordinator can be reached at 412-648-7930 during normal business hours, or at 412-648-7856 after 5 p.m. and on weekends. The coordinator will advise victims on reporting options, guide them through the process of receiving a medical exam, and will assist them in notifying campus or local authorities if desired.

Students are strongly encouraged to visit the SHARE Web site at share.pitt.edu to learn more about unlawful practices under Title IX, reporting sexual violence, support services, and confidentiality.
STUDENT SERVICES

AFFIRMATIVE ACTION, DIVERSITY, AND INCLUSION

The Pitt Office of Affirmative Action, Diversity, and Inclusion has overall responsibility for providing leadership, resources, coordination, and oversight for the University’s voluntary diversity initiatives as well as ensuring equal opportunity and compliance with related governmental requirements. For more information, go to hr.pitt.edu/diversity.

APPEALS: OMBUDSMAN, TUITION STATUS

Students who believe that they may be eligible for Pennsylvania tuition rates may appeal for PA status through the Office of Student Appeals in G-12 Thackeray Hall.

The University ombudsman in the Office of Student Appeals, Thackeray Hall, mediates student disputes involving billing, financial aid, and registration. In many cases your Pitt Public Health departmental student services coordinator may be consulted for advice on registration disputes.

BOOKS

Students can purchase books for all classes from the University Store on Fifth, located at 4000 Fifth Avenue near the Litchfield Towers. More information can be found at pittuniversitystore.com.

BUILDING ACCESS

Students, faculty, and staff may enter Pitt Public Health buildings during the following hours:

Monday through Friday: 7 a.m.–6 p.m. and 6–10 p.m. by signing in with the security guard

Saturday, Sunday, and holidays: 9 a.m.–3 p.m. by signing in with the security guard

Faculty, staff, and students using a security card may enter the building at any time. Others needing to enter the building outside of normal hours must contact campus police to request admission.

Security cards are issued by departments only to those faculty, staff, and students whose employment responsibilities require that they have regular access to the building at any time.

Students who are working in the lab pavilion will be granted card-based access via their departmental administrators.

CAREER SERVICES

Pitt Public Health career services provides individual consultation, resources, and professional programs to guide you in making important decisions about your career. The staff will work with you at all stages of your professional development to help you with a variety of needs: writing a resume, exploring fellowship opportunities, preparing for
an interview, or negotiating a job offer. Individual career counseling appointments can be scheduled using Pitt Bridges, Pitt Public Health’s online job board. Pitt Bridges also contains a robust documents library that stores useful career-related articles on a variety of topics. Learn more about what we can do for you at publichealth.pitt.edu/careers, or contact Joan Anson, career services director, at anson@pitt.edu. You may also call 412-624-3806.

Additional career services include:
• Programs and counseling services to enable students to achieve their public health career destination and/or advanced training opportunities
• Access to password-protected PittBridges, an online tool for career development and database for job and training opportunities
• An alumni-student mentoring program
• Networking opportunities and special events

Our mission: Your success!

CHAPLAINCIES
The University of Pittsburgh Association of Chaplaincies (UPAC) represents a potpourri of different faith traditions. UPAC meets the religious and spiritual needs of the campus community by providing students with a communications link with local religious organizations. For more information or to contact UPAC, visit pitt.edu/~chaplain.

CHILD CARE SERVICES
The University Child Development Center provides care and early childhood education to children of faculty, staff, and students of the University of Pittsburgh. Children range in age from six weeks through six years and participate in a wide range of programs including full and part-time infant, toddler, and preschool options as well as full-day kindergarten. There is a school-age summer program as well. The center serves the University as a laboratory school and the greater community as a model of early childhood excellence. There is a lengthy waiting list, and prospective parents are encouraged to get children on that list as soon as possible. Located at 635 Clyde Street, the center is open 7 a.m. to 6 p.m., Monday through Friday. Call 412-383-2100 or visit ucdc.pitt.edu.

COMPUTER LABS, PRINTING KIOSK
Student computer labs are located throughout campus, including Falk Library and the the fourth floor of Crabtree Hall. Several locations, including Crabtree Hall, have printing kiosks at which registered students can use up to 900 pages per term free of charge. Students can also print to the kiosks from their own devices. Find out more about lab and print kiosk locations at technology.pitt.edu.

COUNSELING
The Pitt Counseling Center, located at the Wellness Center (second floor, Nordenberg Hall), offers the following professional services without charge:

Psychological services: Counseling psychologists, social workers, and consulting psychiatrists work with students through individual and group counseling sessions. People come to the center for various reasons: emotional or social difficulties, marital or other relationship problems, and concerns about academic progress or direction. Please call 412-648-7930 for more information.

Sexual assault services: The Counseling Center provides services designed to alleviate the trauma associated with sexual assault. Emergency medical, legal, and police support are provided. Please call 412-648-7930 for more information.

Visit studentaffairs.pitt.edu/cc for more information.

CROSS-CULTURAL AND LEADERSHIP DEVELOPMENT
The office of Cross-Cultural and Leadership Development (CCLD) is a multipurpose facility fostering cultural collaboration and communication, creating multi-cultural programming and workshops, and offering civic, personal, and organizational leadership training. CCLD is located on the sixth floor of the William Pitt Union. See studentaffairs.pitt.edu/ccld for more information.

CULTURAL AND SPECIAL EVENTS
All concerts, plays, movies, special lectures, etc., given on campus are listed in the Pitt News and the University Times newspapers. Many other city events (e.g., symphony, dance) are also advertised through these two campus publications. City Paper, a free and independent weekly, lists many of the region’s cultural events.

Since 1997 the Pitt Arts program has enriched the quality of life for students through engagement of the arts. Discounted or free tickets to concerts, ballet, plays, and exhibitions are made available on the ninth floor of the William Pitt Union. For more information, visit studentaffairs.pitt.edu/pittarts.

DISABILITY SERVICES
The University of Pittsburgh is committed to providing equal opportunities in education to academically qualified students with disabilities. Students who require accommodation should register with the Office of Disability Resources and Services as soon as possible. Go to studentaffairs.pitt.edu/drs for more information.

HEALTH FACILITIES, INSURANCE
The Student Health Services clinic is located in the Wellness Center on the second floor of Nordenberg Hall (412-383-1800). It provides primary care diagnosis and treatment, specialist referral, and health education services. A wellness fee is assessed in fall and spring terms
for every student (FT $120, PT $60), and the fee is a one-time-per-term co-payment for use of Student Health Services. Detailed information on services and cost of services is contained in the health service brochure available at the clinic. Please note: The Student Health Service does not take the place of health insurance coverage!

In accordance with the Affordable Care Act, students are expected to maintain adequate medical insurance during their enrollment at the University. Students will have to present proof of health insurance when they use the services of the Student Health Service Clinic, and their insurance provider will be billed for services which the student receives.

Should you need health insurance, you may contact the University Benefits Office (412-624-8160) to inquire about the UPMC Health Plan for students. International students will not be able to register for subsequent terms if they do not provide proof of insurance during their first term at Pitt.

The hospitals of the University of Pittsburgh Medical Center (UPMC) are adjacent to the Pitt campus. Emergency health problems can be treated in their emergency rooms, and excellent medical and surgical care is available for serious illness. The dental clinic of the School of Dental Medicine, located on the first floor of Salk Hall, 3501 Terrace Street, provides comprehensive dental care at reasonable rates.

HOUSING

Pittsburgh has a number of pleasant residential neighborhoods. Many graduate and professional students live in Oakland, where the University is located, or in the surrounding neighborhoods of Shadyside, Squirrel Hill, Highland Park, and Mt. Washington. All these areas are within walking distance or an easy commute to the University. Public bus transportation is widely available and is free (inside Allegheny County limits) to those riders with a Pitt ID.

The Housing Resource Center helps students identify, rent, lease, or purchase suitable living accommodations. The center provides information on University owned apartments, an apartment-roommate matching service, a sublet service, neighborhood maps, rental tips, campus shuttle schedules, free local telephone service to contact landlords, and a listing of apartments inspected and approved by the city of Pittsburgh. For more information call 412-624-6998, visit at 127 North Bellefield Street, or go to ocl.pitt.edu.

ID CARDS

To obtain a University ID card, students must be registered for current term classes and must present a photo ID such as a driver’s license, passport, or school or work ID. If you do not have a photo ID, at least two (2) forms of signature ID, such as a social security, bank, or credit card, will be accepted. If you do not have any type of identification, you will need to obtain a notarized affidavit before you come to the ID center at Panther Central in the Litchfield Towers lobby.

There is no charge for the initial Pitt ID; however, a $20 replacement fee will be levied when cards are lost, stolen, or damaged. Go to pc.pitt.edu/card/photoid.php for more information.

INTERNATIONAL SERVICES

The Pitt Office of International Services complements the academic mission of the University by assisting with immigration services and cultural programming. International students are encouraged to consult OIS with questions about visas, travel, employment authorization, and more. Visit ois.pitt.edu to learn more.

INTERNATIONAL STUDIES, STUDY ABROAD

The University Center for International Studies (UCIS) is the central coordinating and support mechanism for the international activities of the University of Pittsburgh. As a University-wide center, UCIS supports multidisciplinary programs of research and instruction in international and area studies, linking departments and schools to the wider University community. It also connects the University with private and public sector institutions, other universities, and institutions in other countries to strengthen the international dimension of teaching, research, and public service. UCIS helps students acquire international understanding through certificate programs, study abroad programs, curriculum developments, and seminars; assists faculty in their international research, teaching, and service; and develops and manages international programs and projects. The center offers graduate certificate programs through its six centers/programs (African, Asian, Latin American, Global, European, and Russian and East European), four of which are designated by the federal government as National Resource Centers. These certificates give evidence of language proficiency and regional knowledge, useful for international careers or advanced degrees with a focus in a particular works area. For more information, contact UCIS at 412-648-7390, or www.ucis.pitt.edu.

LACTATION ROOM

A lactation room is available in A448 Crabtree Hall. Students may request the door combination number from Ann Ostroski at ostroski@pitt.edu.

LEGAL SERVICES

The Graduate and Professional Student Government has arranged for an attorney to provide free half-hour appointments for students on Fridays through the Student Government Board office in the William Pitt Union. Students should call 412-648-7970 to make an appointment.

LIBRARY RESOURCES

University resources: Information about books and serials available at the University of Pittsburgh libraries can be found in PITTCAT, the on-
line catalog for the University Library System. It contains bibliographic information for millions of book and periodical titles, with terminals located in all campus libraries. PittCat PLUS may also be accessed from computers in or off campus at library.pitt.edu.

Library services are provided by Falk Library of the Health Sciences, located on the second floor of Scaife Hall at 3550 Terrace Street. The Pitt Public Health contact is Barb Folb, public health informationist/reference librarian, folb@pitt.edu, 412-648-1974.

The University Library System includes many other libraries useful to students in addition to the University’s main Hillman Library. See library.pitt.edu for more information.

**Library resources outside the University:** In general, the University has sufficient resources to satisfy the needs of graduate students and faculty. However, if needed material cannot be found, Inter-library Loan Services, located in G-27 of Hillman Library, assists students and faculty in obtaining it from other library sources. Cooperative arrangements have been developed between the University of Pittsburgh and neighboring academic institutions such as Carnegie Mellon and Mellon Institute, Duquesne University, and Pittsburgh Theological Seminary to provide supplementary borrowing and research privileges. Many area libraries are also open to scholars, including those of the Allegheny County (Law), Carnegie Library of Pittsburgh, the Historical Society of Western Pennsylvania, and the U.S. Bureau of Mines.

**LOCKERS**

A limited number of student lockers are on the seventh floor of Crabtree Hall. To reserve a locker, contact Bernadette Foley in the Pitt Public Health Office of Student Affairs, 412-624-3002 or foleyb@pitt.edu.

**MAILBOXES**

Student mailboxes are available in most departments. Information will be supplied to new students by the departmental student services coordinators.

**PARKING**

**Evening parking permits** are available for purchase by graduate students at the University Parking Services Office, 204 Brackenridge Hall, Monday through Friday, 8:30 a.m.–5 p.m. Proof of registration, license plate number, and make of vehicle is required, along with payment. Permits may be paid for with cash, check, VISA, MasterCard, or Discover. Checks should be made payable to University of Pittsburgh. For more information, call the parking office at 412-624-4034 or visit pts.pitt.edu/parking. Evening student permits are valid in the lots listed below, Monday through Friday only. Both permits and spaces are available on a first-come, first-served basis, and the parking office administrator has the authority to control the number of spaces assigned.
Day parking is available in OC, OH, PH, SN, and SO lots only.

Please be advised that available parking spaces are more likely to be found on the upper campus. Allow sufficient time to utilize another lot if your first choice is filled. Vanpooling and carpooling information is available at pts.pitt.edu/commuting/index.php.

Visit pts.pitt.edu/parking for maps and additional information.

SC* Falk School

* No parking during special events

The Motorist Assistance Program (MAP) can help student drivers who need to have a battery jump-started, are locked out of their cars, or experience other problems. MAP can also refer drivers to local providers who can change tires or perform other emergency services for a reasonable fee. Call MAP at 412-624-4034 during parking office hours, or campus police at 412-624-2121 at other times.

Parking services also offers a free bicycle registration program, a disability shuttle, a ridesharing program, a SafeRider shuttle after hours, and handicap parking. For more information go to pts.pitt.edu/parking/parkingservices.html. A bicycle parking map can be found at pts.pitt.edu/commuting/bicycling.

PHOTOCOPYING
Photocopy machines are located in Falk library, Copy Cat, and FedEx Kinko’s on Forbes Avenue. Some departments have photocopy equipment available to students.

PREFERRED NAMES
As part of the University’s ongoing effort to accommodate the use of a student’s preferred name throughout University systems, the primary name will be replaced by the preferred name on 28 pages in the University database. The preferred name will only display on these 28 pages if a student has taken the appropriate steps to add a preferred name; otherwise the primary name will display. Go to registrar.pitt.edu/personalinfo.html for instructions on how to update your preferred name.

RESEARCH FOR THE HEALTH SCIENCES
The Office of Research, Health Sciences offers support services for investigators throughout the health sciences schools. In addition to scheduling educational sessions, it maintains a directory of resources including a list of funding opportunities. See oorhs.pitt.edu for more information.

SECURITY, EMERGENCIES
Campus security is provided through the Department of Public Safety. In the event of any emergency or accident, dial 412-624-2121, or 4-2121 on a campus phone. You are advised to adhere to the usual safety precautions.

In the event of fire, evacuate the building immediately and walk across the street. When you hear the fire alarm, respond quickly. Get out! Do not use the elevators—use the stairs.

SINGLE OCCUPANCY RESTROOMS ON CAMPUS
The University of Pittsburgh maintains an abundance of accessible and convenient restroom facilities. There are both gender-specific and single-occupancy restroom facilities located throughout the campus. Gender-specific restrooms are located in all buildings on campus. For a map of the locations of single-occupancy restrooms on campus, see
studentaffairs.pitt.edu/lgbtqia/single-occupancy-restrooms. The Pitt Public Health single-occupancy restroom is located on the first floor of Parran Hall.

SOCIAL AND SERVICE ACTIVITIES

Social events for Pitt Public Health students, faculty, and staff are scheduled throughout the year. These affairs provide an opportunity for informal interaction among members of the school community. Watch for announcements of these and many other activities, most of which are organized by student government:

• International Dinner, sponsored by student government in the spring term.
• Dean’s Day student research presentation, held each spring. Master’s and doctoral students present the results of their ongoing research to peers and faculty in posters and oral presentations, and compete for monetary prizes.
• Blood drives are held at least twice annually by the Central Blood Bank. All are encouraged to donate. In addition, other service activities, usually sponsored by student government, are scheduled periodically.

SPORTS, RECREATION, FITNESS

The Petersen Events Center is located just up the hill at the top of DeSoto Street. The Pete has an expansive student recreation center that features racquetball courts and squash courts, along with Cybex weight machines, a large free weight gym, treadmills, bikes, a health assessment area, an aerobic classroom, and a martial arts practice room. Trees Hall, located across from the Fitzgerald Field House, offers a variety of free activities to all students wanting to keep in shape, burn off nervous energy, or merely enjoy a free chunk of time: swimming, racquetball, basketball, volleyball, and weight lifting. Campus buses run to and from Trees Hall on weekdays, or you can kick-start your workout by hiking up the hill. All full-time students are entitled to a free fitness assessment. Information about campus fitness, sports, and aquatic centers is available through studentaffairs.pitt.edu/campus-recreation.

STUDENT AFFAIRS

The Office of Student Affairs and Education, located in room A519 of Crabtree Hall, serves as the general help and information office for our students. The office provides a variety of services, and we look forward to working with you.

Student Affairs is responsible for a wide range of activities, including recruitment, admissions, course scheduling, graduation, grand rounds, a number of special social, education, and service events, career services, and student organization guidance, to name a few. Although you will come to know your department’s student services staff closely, we are a backup to your department advisors as a source of information on Pitt Public Health and University policies, academic issues, financial aid, housing, safety, and other matters of interest to students. We process registration for our non-degree students and we are the liaison to University administrative offices for students processing special appeals.

Our office is open Monday through Friday from 8 a.m. until 5 p.m. We can be reached at 412-624-3002.

STUDENT EMERGENCY CONTACT INFORMATION IN PEOPLESOFT

We strongly encourage all students to enter emergency contact information in the Pitt computing system, PeopleSoft, so that we can access it if necessary.

Instructions for entering your contact information:

• Log into my.pitt.edu
• Student Center Log-In
• Self-Service
• Campus Personal Information
• Demographic Information
• Emergency Contacts

TRANSCRIPTS, CERTIFICATION OF ENROLLMENT

Official transcripts are available through the Office of the University Registrar in G-3 Thackeray Hall. Pitt Public Health is not permitted to release photocopies of transcripts from the University of Pittsburgh or from any other school. See registrar.pitt.edu/transcripts.html for more information.

Grades are available through your my.pitt.edu site approximately 24 hours after end-of-term grades are due from faculty. All questions about grade awards should be directed to the pertinent instructor. Note: If you have an unresolved University financial obligation, you will not have access to your grades until the debt is resolved.

UNIVERSITY CLOTHING THRIFT STORE

A student-organized thrift store for clothing can be found at the O’Hara Student Center in Room 111. Panther funds or cash are accepted as payment. For more information, visit universityofthriftsburgh.com.

VETERANS SERVICES

The staff of the Veterans Services Office assists veterans, war orphans, and veterans’ dependents in obtaining and using their VA educational benefits. In addition, the office implements the VA work-study program. Staff members serve as veteran advocates with the University, the Veterans Administration, and other related agencies. The office is located at 1440 Posvar Hall. Call 412-624-3213 or visit veterans.pitt.edu.
WRITING CENTER

The Writing Center provides a place for students to improve their writing through one-on-one work with other writers, a composition tutorial, and more. The center is staffed by experienced consultants, and services are free to students. For more information, go to writingcenter.pitt.edu.
TUITION, BILLING, LOANS, AND FINANCIAL AID

TUITION RATES

2017–18 tuition rates have not been released at the time of printing. Fall and spring term tuition is billed on a per-credit basis for fewer than nine credits (part-time, PT); for nine through 15 credits, a flat fee is charged (full-time, FT). In the summer term, all billing is on a per-credit basis, regardless of the number of credits.

2016–17 tuition
Per term FT: $12,750 in-state, $21,065 out-of-state
Per credit PT: $1,039 in-state, $1,726 out-of-state

2016–17 fees
Activity: $30 FT, $15 PT
Wellness: $120 FT, $60 for PT
Computer: $175 FT, $100 PT
Security, Transportation: $90 FT, $90 PT

Generally, in-state Pennsylvania tuition rates apply to those students who are citizens of the United States or have an immigrant or permanent resident visa and have lived in Pennsylvania for a continuous period of 12 months while not attending any college or university in the state. More detailed information can be found at payments.pitt.edu/pa-tuition-rate-eligibility. Questions should be directed to the tuition eligibility coordinator in G-12 Thackeray Hall, 412-624-7610.

A late fee is charged when invoices are not paid on or before the due date.

ELECTRONIC BILLING, DIRECT DEPOSIT

The University of Pittsburgh does not send paper invoices for tuition or fees. All students receive electronic invoices via their Pitt e-mail accounts. Please go to payments.pitt.edu for more information on electronic invoicing.

Financial aid recipients: To ensure that a GSR scholarship or other aid is actually applied to your student account, you must take a copy of your electronic billing statement to your department’s student services liaison at least one week before the payment due date. You must also pay the required student activity fee by the due date, even if you have a full scholarship. Failure to pay the student activity fee will cause a late payment penalty to be charged to your account, and a financial hold may be instituted as well.

Direct deposit in PittPay is advantageous for students expecting a tuition refund. Rather than waiting for a check from the University, students will have refunds deposited directly into their bank account within two to three business days. Read more at payments.pitt.edu/about_refunds.

Students are strongly encouraged to enroll in eRefunds, update the names of people who have access to their accounts, and view payment plans. For details visit payments.pitt.edu.

FINANCIAL AID, STUDENT LOANS

The availability of non-loan aid varies considerably among departments of Pitt Public Health. To inquire about funding options for your program, contact the student services person designated for your program in the listing on pages 7 and 8 of this handbook. Information on student loans may be obtained from the University Office of Financial Aid, 412-624-7488. Students may also find online information about student loans at oafa.pitt.edu/financialaid. All students approved for loans must log in to the PeopleSoft Student Center to actively accept or decline a loan award, or to request a reduction in the amount approved loan. Instructions will be sent to loan applicants by the University’s Office of Admissions and Financial Aid.

Loan applicants who are awarded additional financial aid (assistantships, scholarships, or fellowships) after submitting the loan application should be aware that the additional aid could result in a reduction or total cancellation of loan eligibility, or an obligation to immediately return all or part of any loan that has been disbursed.

The University of Pittsburgh must comply with federal regulations requiring the Office of Admissions and Financial Aid to report all student aid awards. Financial aid and assistance, including assistantships, scholarships, and fellowships, are considered resources to be subtracted from the total cost of education established by the University in order to compute demonstrated financial need. Students are not eligible to receive subsidized loans when their resources meet or exceed demonstrated financial need. The Office of Admissions and Financial Aid will notify you if your loan is affected by a financial aid award. Although a scholarship is always preferable to a loan, loan recipients who are later awarded financial aid should budget their money wisely and be prepared to make repayment.

Policy affecting student loan borrowers: satisfactory academic progress: New federal regulations now require universities to monitor “satisfactory academic progress” of students receiving federal loans or other forms of federal aid. If it is determined that a student is not making reasonable academic progress, the student will not be eligible to receive student loans or other aid.

In general, the regulations require doctoral students to complete the degree within the statute of limitations (as defined by the Regulations Governing Graduate Study). Master’s students must earn no more than 150 percent of credits required for the degree. All students must have completed (received a final grade) at least 67 percent of the total number of credits attempted at any point in time, and maintain a satisfactory grade point average. Appeals are usually limited to students whose progress has been affected by serious illness, accidents, death of an immediate family member, or other extraordinary circumstances.

Please contact Mary Derkach, derkach@pitt.edu, with questions about this policy.
Deferral of repayment: Certification of enrollment for deferral of student loan repayment is processed by the registrar’s office, G-3 Thackeray Hall, 412-624-7635.

Loan entrance interview: Federal guidelines require an entrance interview for all first-time student loan borrowers. Interviews can be completed online at oafa.pitt.edu/learn-about-aid/next-steps.

If you have any questions about your loan status, please call the Office of Admissions and Financial Aid at 412-624-7488 and, if necessary, make an appointment to speak with a financial aid counselor.

STAFF TUITION BENEFITS

Pitt’s Office of Human Resources Benefits Department administers staff education benefits. The University offers tuition remission to all regular full-time staff members, their spouses, domestic partners, and dependent children, providing they meet admission requirements. Eligibility does not guarantee admission or retention in any academic program. If your employment is regular part-time, you are able to receive education benefits for yourself only; however, the benefit is prorated to correspond to the percentage of effort of your employment status. For more information on educational benefits, go to hr.pitt.edu/benefits/education. The human resources Web site also provides information on University staff and faculty positions.

Full-time staff: A regular full-time staff member may take a maximum of six credits per term. Graduate benefits are subject to taxation (please see below). The employee share is 10 percent per credit.

Part-time staff: Regular part-time staff will receive a prorated share of six credits. The prorated share corresponds to the standard full-time work week of 37.5 hours. Graduate benefits are subject to taxation (please see below).

Taxation: Complete information about the taxation of University of Pittsburgh staff education benefits can be found at hr.pitt.edu/benefits/education. The first $5,250 in graduate level education benefits is not subject to taxation. The full value of graduate education benefits is not subject to taxation. The employee share is 10 percent per credit.

The amounts of graduate level education benefits are accumulated in the calendar year in which the term commences. For example, for the calendar year 2017, the terms are spring 2017, summer 2017, and fall 2017. The amount of benefit received is added together for each term to determine if benefits have reached the $5,250 accumulated nontaxable amount; amounts in excess of $5,250 are taxed.

In summary, taxation applies to the cumulative total of graduate level education benefits in excess of $5,250 for the three terms in any one calendar year. The exemption amount of $5,250 is established by federal statute and may be subject to change in any future calendar year. Taxation reduces the amount of the benefit by 35.65 percent (28 percent FIT, 7.65 percent employee FICA). Any adjustment in the reduction based on the individual’s specific tax situation will be made through the payroll system and may affect the employee’s net pay by calendar year end. Education benefits for spouses/domestic partners at the graduate level continue to be fully taxable.

FINANCIAL AID

While Pitt Public Health cannot guarantee funding to all applicants, a significant number of individuals, particularly doctoral students, receive full or partial funding through scholarships, fellowships, traineeships, and assistantships. Many master’s degree candidates also receive partial scholarships, student employment, or student loans.

Traineeships, assistantships: Because traineeships and assistantships are almost always awarded by departments, a student’s first contact in inquiring about the availability of aid should be the departmental student services coordinator or the academic advisor. Students may also refer to the department’s Web site for information on available funding.

Graduate student assistants (GSAs), graduate student researchers (GSRs), teaching assistants (TAs) and teaching fellows (TFs) are graduate students who receive support in return for specified duties while gaining teaching, teaching-related, or research experience under the guidance of a faculty mentor. However, the primary objective of the GSA, GSR, TA, or TF—from the standpoint of both the University and the individual—should be to make steady progress toward an advanced health science degree. GSA/GSR/TA/TF employment status is dependent upon active graduate student status.

View the latest University and Graduate School of Public Health policy statements available in departmental offices or on the Pitt Public Health Web site.

Scholarships: Several times per year the Pitt Public Health Office of Student Affairs contacts department chairs and student services coordinators to announce the availability of University or school scholarships. Students are then invited to apply for these scholarships through an online application form on the Pitt Public Health Web site.

Some departments also offer partial scholarships to students. Your departmental student services coordinator is the best contact to find out more.

Application of aid to tuition: For information on applying financial aid to tuition charges, students with scholarships, assistantships, or other forms of aid should contact their department’s student services coordinator as soon as possible with a copy of your award notice and your received tuition invoice.
GETTING TO KNOW PITTSBURGH

POPULAR CITY SITES

Pittsburgh is a city on the move—environmentally, economically, and culturally. Although known in the past as the smoky city, recent decades have introduced dramatic changes in industry and economy. Now we enjoy the best of the old and the new. As a matter of fact, in 2014 The Economist named Pittsburgh as America’s Most Livable City in the continental U.S. and ranked it 30th worldwide. To top it off, the city has one of the lowest crime rates of any major metropolitan area.

This handbook can’t possibly list all the great hot spots for music, sports, history, shopping, dance, film, spoken word, architecture, biking, theater, international foods, art, wilderness exploration, thrift stores, festivals, and locally grown produce. We can, however, suggest a few Web sites as starting places for discovering your own favorite spots in the city. Check them out, make up your own to-do list, and start exploring!

• pittsburghpa.gov
• pittsburgh.net
• coolpgh.pitt.edu

TRANSPORTATION

Pitt students have lots of ways to get around this great town.

**Pitt city buses:** University of Pittsburgh students may ride free on public transportation within Allegheny County just by scanning a valid Pitt ID card. A Port Authority Transit (PAT) system map and individual bus line schedules are available on the PAT Web site at portauthority.org.

Buses to downtown Pittsburgh can be boarded every 5-10 minutes on Fifth Avenue across DeSoto Street from Pitt Public Health. Any series 61 or 71 bus will take you downtown and bring you back to Oakland. The 67 and 69 buses will also take you downtown via Fifth Avenue, stopping on Smithfield Street, where you can walk across the river to Station Square on the South Side. For the return trip, series 71 and 61 buses can be boarded downtown at Fifth and Wood or Fifth and Smithfield; the 71s travel to Oakland on Fifth Avenue, while the 61s travel on Forbes Avenue.

Buses to Shadyside, an eclectic shopping and dining district, can be boarded in front of Mellon Bank on Fifth Avenue, across from the green space. Any 71B or 71D bus can drop you off at South Aiken Avenue where you can then walk three blocks to Walnut Street, Shadyside’s main commercial district.

**PAT’s 28X Airport Flyer** provides convenient transportation between Oakland, downtown Pittsburgh, and the Pittsburgh International Airport.

**Pitt buses:** The University also runs its own fleet of buses and shuttles, serving all parts of the campus, including the Center for Biotechnology and Bioengineering, as well as other locations in North and South Oakland, Squirrel Hill, Shadyside, and the Southside Works. This service is free to Pitt students, faculty, and staff, but a Pitt ID must be shown upon boarding. Schedules are available at pc.pitt.edu/transportation/routes.php.

**Taxis:** Two taxi companies service the Pitt area:

• Classy Cab Company 412-322-5080
• zTrip 412-777-7777

**To and from the airport:** For transportation options to or from the Pittsburgh International Airport, Super Shuttle operates a shuttle to the airport. You must pre-book at supershuttle.com.

Remember that you can also get to or from the airport using PAT’s 28X Airport Flyer service.

**Bike rentals:** Healthy Ride is a public bikesharing system in Pittsburgh. There are several rental stations in Oakland and many more throughout the city. See healthyridepgh.com for more information.
**APPENDIX I**

**NON-DISCLOSURE OF DIRECTORY INFORMATION**

The University of Pittsburgh may establish categories of information known as “Directory Information” and release this information without student consent, upon request. A student may request, in the format provided below, that the following categories be excluded from Directory Information that would be released without the student’s consent if requested by a third party.

The University designates the personally identifiable information contained in a Student’s Educational Record listed below as “Directory Information”:

• The Student’s name
• The Student’s address, phone number, and electronic mail address
• The Student’s major field of study
• The Student’s place of birth
• The Student’s achievements, degrees, academic awards, or honors
• The Student’s weight and height, if a member of an athletic team
• The Student’s previous educational institutions
• The Student’s participation in officially recognized activities and sports
• The Student’s dates of attendance
• The Student’s photograph

When the Office of the University Registrar receives a student’s refusal to permit the release of “Directory Information,” no further disclosures of directory information are made without that student’s written consent (except to parties who have legal access to student records without written consent.) A student may rescind this action by submitting the request in writing to the Office of the University Registrar. Note that the following procedures apply:

1. Students may review their educational records by submitting a written request to the Records Custodian in the appropriate University Unit. A listing of those University offices which routinely possess educational records of students are set forth in University Procedure 09-08-01.

2. Students may request amendment of educational records that they believe are inaccurate or misleading by submitting a written request to the Records Custodian and following the steps set forth in University Procedure 09-08-01.

3. As set forth in University Policy 09-08-01, access to a student’s educational records may be required and permitted by University faculty and staff for legitimate educational purposes where access by such individuals is necessary to complete their University-related duties.

If you choose not to have “Directory Information” released, complete and return this form (also available at publichealth.pitt.edu/home/academics/forms) to the Office of the University Registrar (G-3 Thackeray Hall) and to the Pitt Public Health Office of Student Affairs (A519 Crabtree Hall) by the second Friday in September.

APPENDIX II

PRINCIPLES OF THE ETHICAL PRACTICE OF PUBLIC HEALTH

1. Public health should address principally the fundamental causes of disease and requirements for health, aiming to prevent adverse health outcomes.

2. Public health should achieve community health in a way that respects the rights of individuals in the community.

3. Public health policies, programs, and priorities should be developed and evaluated through processes that ensure an opportunity for input from community members.

4. Public health should advocate and work for the empowerment of disenfranchised community members, aiming to ensure that the basic resources and conditions necessary for health are accessible to all.

5. Public health should seek the information needed to implement effective policies and programs that protect and promote health.

6. Public health institutions should provide communities with the information they have that is needed for decisions on policies or programs and should obtain the community’s consent for their implementation.

7. Public health institutions should act in a timely manner on the information they have within the resources and the mandate given to them by the public.

8. Public health programs and policies should incorporate a variety of approaches that anticipate and respect diverse values, beliefs, and cultures in the community.

9. Public health programs and policies should be implemented in a manner that most enhances the physical and social environment.

10. Public health institutions should protect the confidentiality of information that can bring harm to an individual or community if made public. Exceptions must be justified on the basis of the high likelihood of significant harm to the individual or others.

11. Public health institutions should ensure the professional competence of their employees.

12. Public health institutions and their employees should engage in collaborations and affiliations in ways that build the public’s trust and the institution’s effectiveness.

APPENDIX III

THE PUBLIC HEALTH PROFESSIONAL’S OATH

As a public health professional, I hold sacred my duty to protect and promote the health of the public. I believe that working for the public’s health is more than a job; it is a calling to public service. Success in this calling requires integrity, clarity of purpose, and, above all, the trust of the public. Whenever threats to trust in my profession arise, I will counter them with bold actions and clear statements of my professional ethical responsibilities.

I do hereby swear and affirm to my colleagues and to the public I serve that I commit myself to the following professional obligations.

In my work as a public health professional...

• I will strive to understand the fundamental causes of disease and good health and work both to prevent disease and promote good health.

• I will respect individual rights while promoting the health of the public.

• I will work to protect and empower disenfranchised persons to ensure that basic resources and conditions for health are available to all.

• I will seek out information and use the best available evidence to guide my work.

• I will work with the public to ensure that my work is timely, open to review, and responsive to the public’s needs, values, and priorities.

• I will anticipate and respect diverse values, beliefs, and cultures.

• I will promote public health in ways that most protect and enhance both the physical and social environments.

• I will always respect and strive to protect confidential information.

• I will maintain and improve my own competence and effectiveness.

• I will promote the education of students of public health, other public health professionals, and the public in general, and work to ensure the competence of my colleagues.

• I will respect the collaborative nature of public health, working with all health professionals who labor to protect and promote health.

• I will respectfully challenge decisions that are contrary to supporting and protecting the public’s health.

• In all that I do I will put the health of the public first, even when doing so may threaten my own interests or those of my employer.

In dedication to these high goals, on my honor, and with a clear understanding of these obligations that I as a public health professional have accepted, I do, this day, commit myself.
