

THE THIRD DISCOURSE: ON THE FOUNDATIONS (AND REMEDIATION) OF HEALTH INEQUALITY

TUE 10/10, 4 PM, G23 AUDITORIUM

To mark his installation as the Philip Hallen Chair in Community Health and Social Justice, BCHS's **STEVEN ALBERT** will revisit Rousseau's 1754 *Discourse on the Origin and Foundations of Inequality Among Men*, or "Second Discourse."

We have moved beyond early philosophical speculation to an emerging science of inequality, where the emergence of hierarchy can be explored experimentally. Health disparities can be viewed through this same lens and offer lessons on remediating inequality.
