Welcome!
Getting to Know Us...
Why Pitt Public Health?

• One of six Schools of the Health Sciences at University of Pittsburgh

• One of over 75 accredited schools and programs of public health in the U.S.

• Ranked among the top five schools of public health in the U.S., based on NIH funding
Why Pitt Public Health

- Awarded more than $1 billion in NIH funding since 2000
- Dedication to education and low student-to-teacher ratio (4:1)
- Unique opportunities for education, research, and service
A Leader in Public Health Research

- The longest-running investigation of the natural history of AIDS (Pitt Men’s Study)
- The first (and only) school of public health with a Department of Human Genetics

Committed to public health issues, at all levels of “public,” for example:

- Local (Marcellus Shale Drilling)
- Statewide (WalkWorks)
- National (Medicare Part D)
- Global (exposure to foodborne toxins)
Overview for this morning
